

**To the attention of all International  
Commissaires**

Aigle, 30 November 2016  
Ref: Sports Department / Ab / cbo

Dear Commissaires,

As per the information sent in the previous UCI Newsletters to the National Federations, it was announced that the UCI is rebuilding its internal database named **UCI DataRide**.

With this email, we would like to summarize the latest information related to this project which is available on the **commissaires extranet** (access details attached):

1. UCI dataRide introduction to the Commissaires (EN version);
2. The UCI Unique ID (EN version only)
3. Information bulletin to the organizers and timing companies (EN version)
4. Information bulletin to the national federations (EN version)

As it is explained in the information bulletin, starting from **1<sup>st</sup> of January 2017**, all the results from international races are expected to be submitted directly to the portal by the timing companies or international commissaires.

Therefore, we kindly invite UCI Commissaires to attend an **online training webinar**, the purpose of which is to introduce international commissaires with the new results and ranking system.

- There are 3 similar sessions scheduled in December (two in English and one in French);
- Each session has only a capacity for 100 persons given on a 1st come basis;
- The sessions will be recorded and available for replay for those who are unable to access the live webinar;
- For any additional information please contact: [support.ucidata@uci.ch](mailto:support.ucidata@uci.ch)
